COOPERATION >

WORKING WITH MICROFINANCE INSTITUTIONS

- **Working with MCPI since 2006**
- **MFIs share the same vision with ICCO as agents of change towards poverty eradication.**
- **MFIs closely work with ICCO's target beneficiaries (farmers, fisherfolk, small enterprises or small businesses, etc.)**
- **MFIs provide technical expertise and capacity building to target beneficiaries to help them grow or expand their business.**
- **ICCO provides funding for MFI networks for capacity building of members as well as their clients.**

120 Farmers graduated from Field School

INTERVENTIONS: LIVELIHOOD PROJECTS, SHELTER, FOOD SECURITY, HEALTH AND DISASTER MANAGEMENT

MORE THAN EUR 2.9MIO HAS BEEN SPENT

CHALLENGES DURING EMERGENCY RESPONSE

- **Scarcity of materials**
- **Scarcity of human resources (carpenters, engineers, etc.)**
- **Price inflation**
- **Overlapping support from other institutions with the same beneficiaries**
- **Logistics**
- **Lack of commitment from the LGUs**

CHALLENGES WITH MFIS

- During emergency response, grants are the only type of direct intervention of our back donor.
- Grants could distort the MFIs' market and create confusion amongst their clients.
- Some MFIs have started asset recovery programs.
- As our intervention, we agreed to fund community-based enterprise projects as well as provide income generating asset projects.

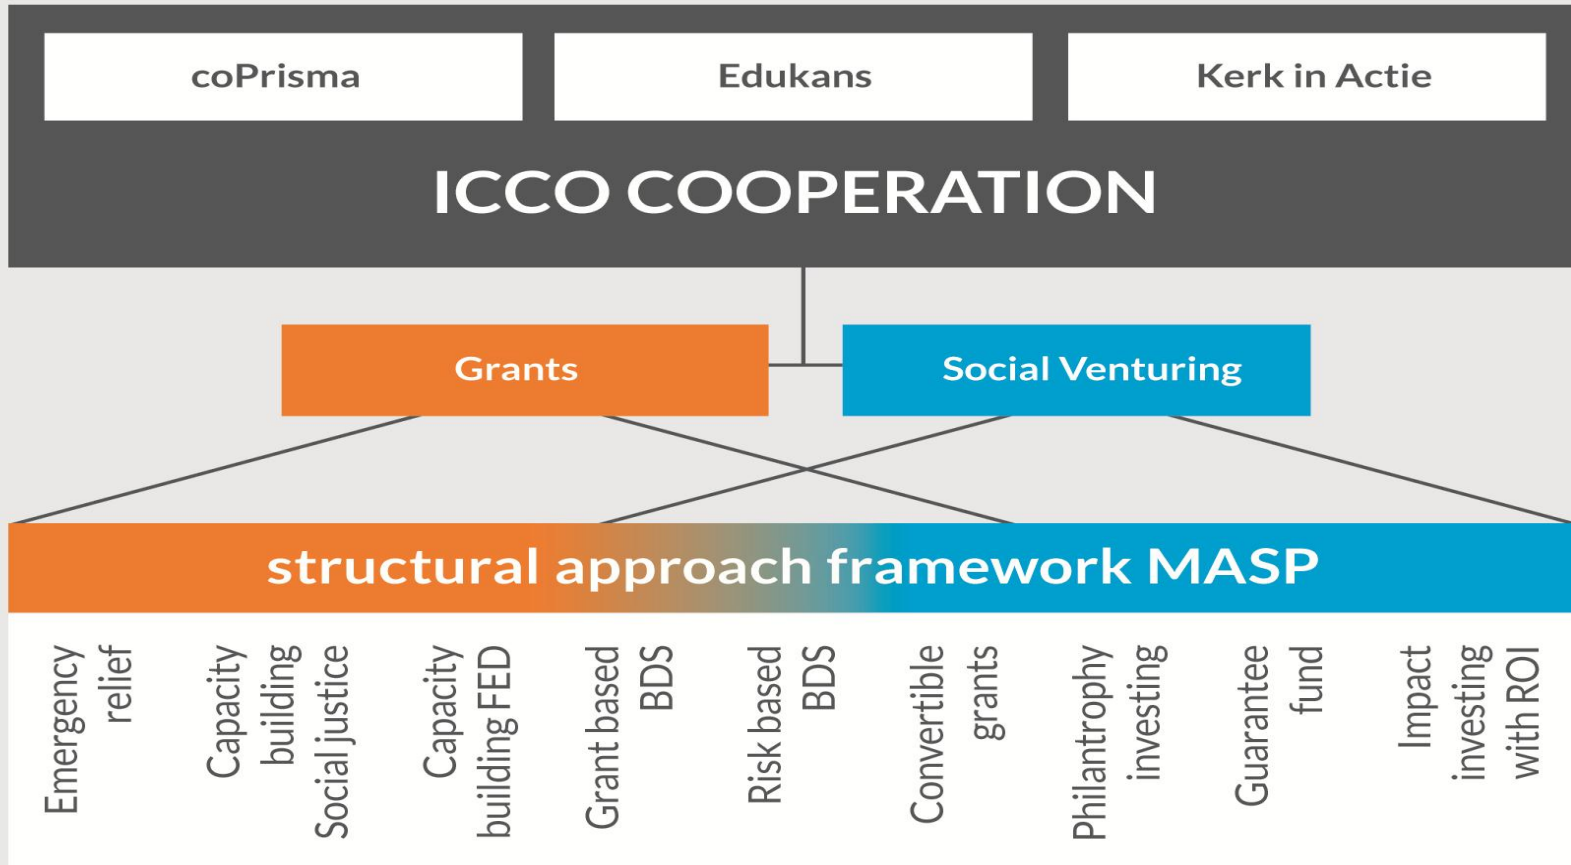

COOPERATION >

LESSONS LEARNED AND OPPORTUNITIES

- **Working with MFIs during emergency relief should be done as soon as disasters arise.**
- **MFIs should be able to provide unique funding to its clients during emergency situations.**
- **The Philippines is a disaster prone country. Disaster Risk Reduction Management (DRRM) program is needed.**
- **ICCO will promote DRRM in the Philippines by setting up a DRRM program in the regional office.**
- **A 2nd round of rehabilitation program will hopefully be available and MFIs will be invited to provide support.**

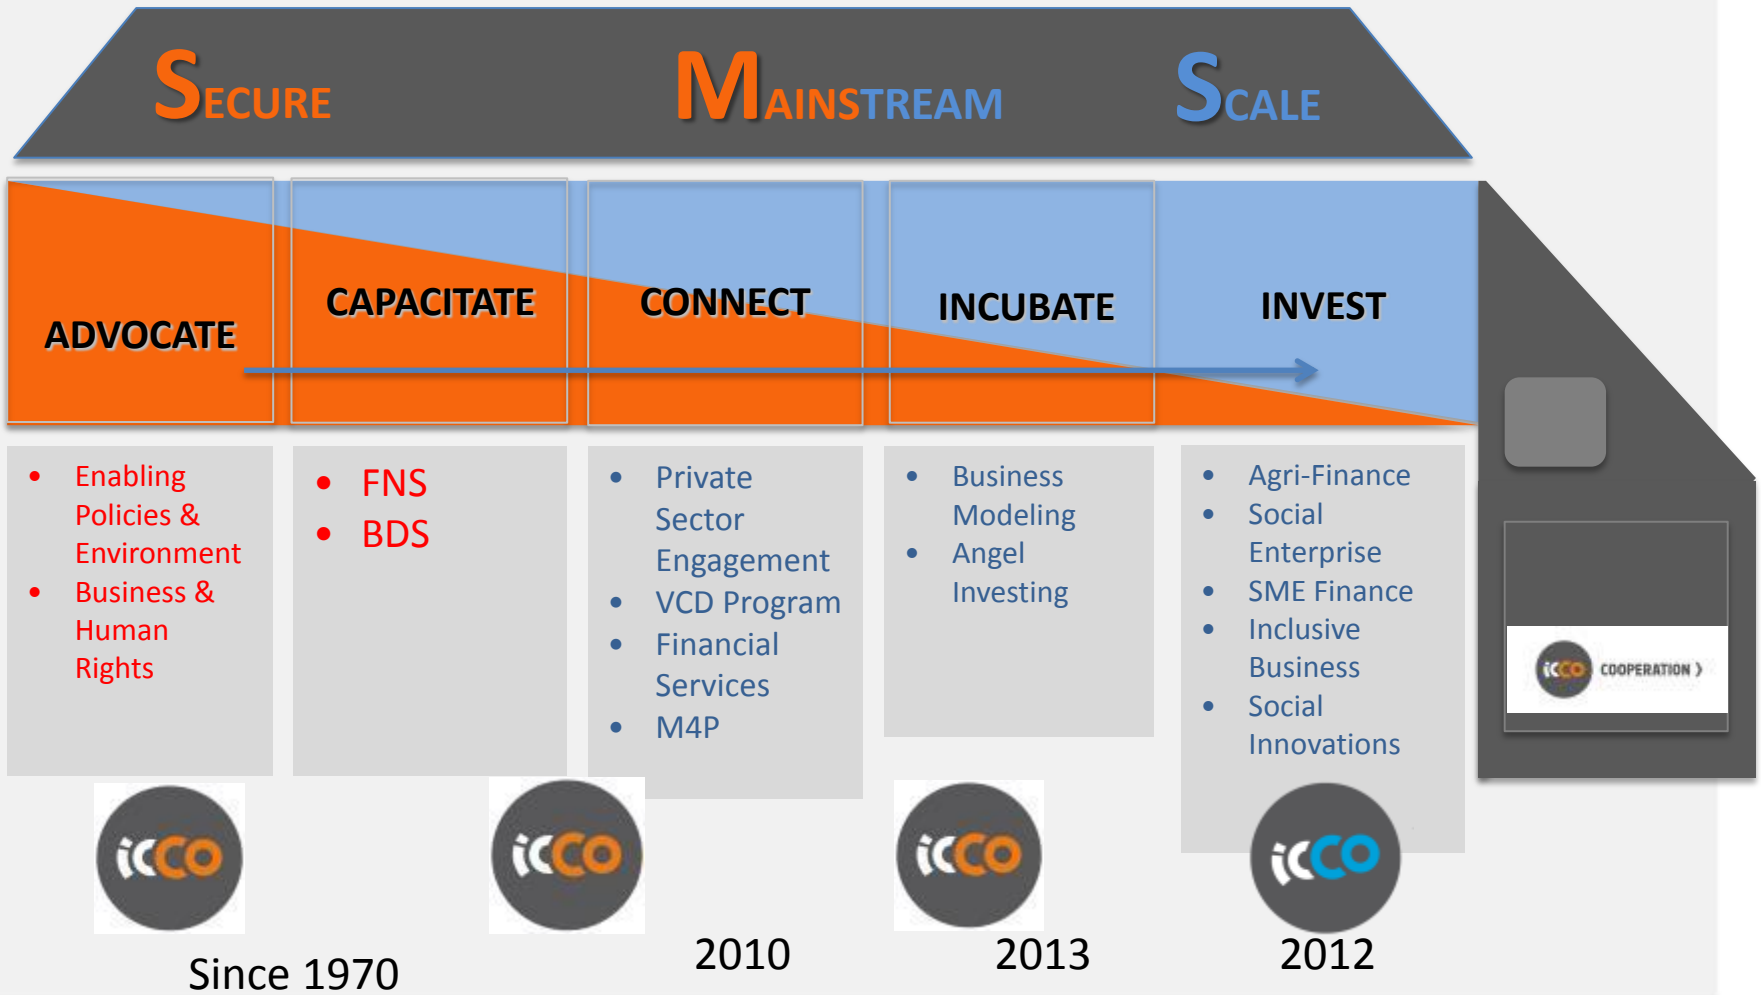

ICCO'S PRESENCE IN THE PHILIPPINES BEYOND 2015

- **PH is currently categorized as a middle-income country**
- **No more grants funding after 2015**
- **Loan and Guarantee Project**
- **ICCO Investment is available**
- **Agribusiness Booster (AbB) will be available**

- grant model
- revenue model

BDS = Business Development Services, FED = Fair Economic Development, ROI = Return on Investment, MASP = Multi Annual Strategic Plan

We are looking for partners: enterprising people, institutions, and companies who feel at home with our mission and values and want to build a better world.

PARTNER TO
ENTERPRISING PEOPLE
